

JRAMAE A. GALLOS

JUNIOR SOFTWARE ENGINEER

09704718961 | jramaegallos1001@gmail.com | Salawag, Dasmarinas Cavite, Philippines

PORTFOLIO: <https://jramaegallos.github.io/portfolio/>

LINKEDIN: <https://www.linkedin.com/in/jramae-gallos-1a2289281/>

SUMMARY

Full Stack Software Engineer with a Bachelor's degree in Computer Science from the University of the Philippines Los Baños and currently pursuing a Master's degree in Information Systems at the University of the Philippines Open University. Experienced in designing and developing enterprise applications across database architecture, backend services, and frontend development, leveraging modern technologies and development practices. Passionate about AI research and development, particularly the integration of LLMs and AI technologies into practical applications.

SKILLS

Java
Java Script
Python

Full Stack Web Development
Artificial Intelligence
System Architecture

Communicates Effectively
Good Interpersonal Skill
Work-oriented with good work ethics

PROFESSIONAL EXPERIENCE

Software Ventures International

October 2024 - Present

- Designed and developed an AI-powered chatbot application using Retrieval-Augmented Generation (RAG) and MCP integration to connect with and leverage existing enterprise systems.
 - Developed backend services using Spring Boot and Java 25, following Hexagonal Architecture principles for maintainable and scalable web applications.
 - Built responsive frontend applications using ReactJS.
 - Used Solr9 as vector database to store embeddings and optimize semantic search.
- Contributed to system architecture design, transitioning monolithic applications into scalable microservices.
 - Utilized modern frameworks such as Spring Boot and Kafka to build event-driven architectures.
 - Optimized Cassandra database schema for performance and scalability.
 - Implemented observability stacks to enhance system monitoring, logging, and reliability.
- Designed and developed a Document Management System using Java, JavaScript, and Cassandra DB, supporting scalable document storage and management.
- Applied AI-assisted development using OpenCode and Cursor to improve development efficiency and productivity.
- Managed Cassandra database operations, including schema design, data modeling, indexing, and query optimization.
- Containerized applications using Docker for consistent development and production environments.
- Managed AWS deployments and application monitoring to ensure reliable performance and availability.

- Developed automation tools using Java to streamline business workflows and reduce manual tasks.
- Built java batch tools for processing and organizing business-critical documents, improving efficiency in document handling.
- Created custom Python scripts for automation and data transformation tasks.

TimeFree Innovations, Inc.

June 2023 - August 2023

- Developed web applications using AngularJS, focusing on dynamic and responsive user interfaces.
 - Contributed to the frontend development of an ongoing team project by implementing UI features and improving user experience using AngularJS.
- Gained foundational knowledge in cybersecurity through participation in online training programs, enhancing awareness in data protection.

ACADEMIC EXPERIENCE

Undergraduate Capstone Project

CMSC 190: Special Topics (AY. 2023-2024)

- **Project Title:** *eLICOM: A Pre-Enrollment System for Libon Community College, Libon, Albay*
- Developed as a solo undergraduate capstone project to address and streamline the student pre-enrollment process.
- Built using the MERN stack: ReactJS (frontend), ExpressJS (backend), and MySQL (database).
- Implemented user authentication, course selection, and admin-side management features to simulate real-world enrollment workflows.
- Demonstrated full-cycle development—from system analysis and design to deployment and documentation.
- Source Code:
 - Frontend: [GitHub – elicom-client](#)
 - Backend: [GitHub – elicom-server](#)
- Documentation: [Special Problem Manuscript](#)

EDUCATION

University of the Philippines Open University

2026-2028

Masters in Information System

University of the Philippines Los Baños, Los Baños Laguna

2020-2024

Bachelor of Science in Computer Science

- Cum Laude
- DOST - SEI Academic Excellence Awardee
- Phi Kappa Phi Honor Society Nominee

ADDITIONAL INFORMATION

- **Languages:** English, Tagalog, Bicol
